

Input in Bi-Weekly
Anushree Shukla
Chatbot Analysis/QA Analysis

Contribution in Bi-weekly:

1. Prompt Generation
2. Chatbot Testing
3. Chatbot Data Analysis

Work done from 21 March to 27 March

- Discussion with Developer about the Data for Analysis
- Came up with several ideas regarding analysis
- After reviewing data generated around 100 prompts
- Tested from a user perspective and gave an analysis
- Prompts were marked Pass or Fail
- Discusses failed prompts with developers
- Developers made the required change
- Again tested with different prompts and collected data
- Analysis of chatbot was recorded for making the dashboard
- Made Chatbot Dashboard using PowerBi

Work done from 27 March to 28 March

- Dashboard review by Sejal
- Took feedback from Sejal and scrapped the old idea
- Discussion with Sakshi and Sanjeev for better data implementation in Chatbot
- New and refined data dump in chatbot
- Made new and different 40 Prompts for chatbot training

Work Done from 29 March to 4 April

- Made required changes in the dashboard
- Updated according to the issues raised by the team
- Finalized dashboard got reviewed by the team
- Done changes accordingly

Tools:

- PowerBi is used for making Chatbot Analysis
