

11 March 2025

Created a text document on notepad listing the tasks performed after the previous biweekly date i.e. 30 January 2025.

19 March 2025

Created an Excel sheet by extracting individual members' issue details from the DevOps Issue Tracker. Scores were collected from the App Development CoE Issue Tracker and the MPC Issue Tracker. The sheet includes each team member's scores, issue count, severity assigned, and the specific application for which the issue was raised.

24 March 2025

Updated scores and issue count of members.

25 March 2025

Updated scores and issue count of members.

27 March 2025

Contributed content to be written on the tournaments cards for giving a gist of the applications worked upon , namely NM App Revamp, NaMo Transcript, and NaMo AI, to be displayed on the "tournaments" page.
