

User Stories for Coach Login

1) Title: Coach Login flow

Description: As a coach, I want to sign in to the system using my Domain ID and password to access the “Coach Dashboard” . In case I forget my password, I want to be able to reset it through a secure process, which includes receiving an OTP on my recovery email ID for identity verification, so that I can regain access to the dashboard.

Acceptance Criteria :

1. Coach Sign-In :

- The Login page contains a five member's Team Photo , main heading “Login” , two input fields with placeholder : “**Domain Id**” and “**Password**” respectively , a “**Forgot Password**” link and a “**Login**” button .
- Coach will be able to enter the credentials in the input fields and can click the “Login” button.
- If entered credentials are correct and successfully authenticated , coach will be logged in to the system and will get redirected to “**Coach Dashboard**” and for the acknowledgement a toast appears upon successful login as “**Welcome Coach [coach name]**”
- If the credentials are invalid , and coach clicks the “Login” button , an error message “**Invalid Credentials**” should be displayed and the input fields should remain in editable format to change the credentials
- There is no login attempts limit .

2. Password Reset - Forgot Password Link:

- If Coach is unable to recall the password , there is a “Forgot Password” link for Password reset .
- If coach clicks on Forgot Password link , he/she will navigate to a page where an input field for entering the password recovery email is there with placeholder “**Enter Your Email**” along with a “**submit**” button and “**back to login**” transparent button with a left directed “**arrow icon**” and a main heading “**Forgot Your Password?**”
- Coach will be able to enter the “email Id” in the “input” field and can click the “submit” button to proceed .
- Coach will receive a 6 digit OTP on the password recovery email ID entered and will be displayed with a form for entering the received OTP .
- Coach will be able to enter the OTP and click on “submit” button . If entered OTP is correct and verified successfully , the coach will navigate to password reset page to reset the password . Otherwise , a relevant error message will appear like “Invalid OTP” . The form turns editable and the Submit button remains disabled till all the 6 digit OTP is entered .
- On Password reset page , two input fields will be there with placeholders : 1) Enter Password 2) Confirm Password resp. along with a “save” button . Coach will be able to enter the password in the respective fields . If both the passwords matches , Coach can click the “save” button to update the password , otherwise , “**Passwords do not**

match” error message will appear and save button remains disabled till the password matches

- If the password is reset , coach will navigate to “login” Page , and can enter the credentials and click on “Login” button . If credentials are correct and authenticated successfully , a toast “Welcome Coach [Coach Name]” will appear and coach will get navigated to Coach Dashboard.
- By default , passwords are masked or obfuscated but can be viewed if wanted by clicking on the “eye” icon placed in the input field of password.

1) Title : Coach Dashboard Layout with Key Sections

Title : As a coach, I want to view six main sections on the dashboard, so that I can easily navigate and manage the players, tournaments, team, profile , Team documents and view performance data of the team in a graphical format .

Acceptance Criteria :

1. Coach Dashboard Layout :

- It includes a main heading “**Coach Controls**” along with six main sections:
 - **Edit Players**
 - **Edit Tournaments**
 - **Edit Team**
 - **Coach Profile**
 - **Data Analysis**
 - **Team Documents**
- Each section should be clearly labeled .
- Sections should be easily clickable and accessible from the dashboard.
- The sections should be visually distinct, with sufficient spacing and styling to differentiate each section.
- Each section should be interactive and provides a clear indication (such as hover effects when clicked or hovered , ensuring a smooth user experience.
- Clicking on any of the sections redirects the coach to the corresponding page .

1) Title : Player Management

Description : As a coach, I want to manage player profiles, view and edit their details, and navigate through a structured dashboard to efficiently update player information and manage the team.

Acceptance Criteria:

1. Navigating to Players Section :

- Clicking on **Edit Players** section from dashboard navigates the coach to the **Players Page**.
- The **Players Page** displays a “Players” main heading , vertically scrollable list of players with attributes such as “Employee ID” , “Name” , “Issue Count” , “Score”. **“Add a**

Player” button and a **“back”** button allowing the coach to quickly review all team members.

- An **"Add Player"** button is visible and clearly labeled for adding new players to the system.
- Clicking on “Add a player” button , opens a form to enter details of the player that needs to be added to the system .
- The form includes input fields for details (refer “Viewing Player Profile” section down below) and a save “button”
- After entering the details , and clicking on “save” button , leads to addition of new player to the system

2. Viewing Player Profile:

- Clicking on any player from the list opens the **Player Profile** page.
- The profile includes key details such as:
 - **Domain Name, Employee ID, Member Role, Issue Tracker(with all issue categories i.e “Blocker” , “Critical” , “Major” , “Normal” , “Minor”), Issue Count, Previous Score, Courses, Projects, and Profile Photo.**
 - IT also includes two buttons **“Edit”** and **“Save”**.
- The profile is visually organized, making it easy for the coach to review and manage.

3. Editing Player Profile:

- The **Player Profile** page includes an **“Edit”** button at the bottom.
- Clicking **Edit** transforms the profile into an editable form and on the form along with the details, coach will see three buttons “Edit” , “Save” , “Delete” with proper color coding
- The coach can modify all details such as **Domain Name, Employee ID, Member Role,** etc. and can upload **“Profile”** photo

4. Saving Player Profile Updates:

- After editing the player profile, a **Save** button is visible.
- Clicking **Save** , updates the player’s details and reflects the changes immediately on the profile page.
- The profile returns to view mode with updated information after saving.

5. Deleting Player Profile:

- The **Player Profile** page includes a **Delete** button at the bottom.
- Clicking the **Delete** button prompts the coach with a confirmation dialog that says, “Are you sure you want to delete this player’s profile?”
- Upon confirmation, the player’s profile is removed from the system and is no longer visible in the player list.

6. Collapsing Expanded Player Profile:

- The **Player Profile** page includes a **Cross Icon** at the top right.
- Clicking the **Cross Icon** collapses the player profile and returns the coach to the players list.

2) Title : Tournament Management

Description : As a coach, I want to navigate to the tournaments page from the "Edit Tournament" section, where I can view and manage tournament details, so that I can add new tournaments or edit existing ones.

Acceptance Criteria:

1. Navigating to the Tournaments Page :

- Clicking on the **Edit Tournament** section from “Coach Dashboard” redirects the coach to the “**Tournaments**” Page.
- The **Tournaments Page** displays a grid of all tournaments cards . an “**Add a Tournament**” button and a “**back**” button
-

2. Viewing Tournament Details:

- Clicking on any tournament card opens the **Tournament Form** .
- Tournament form includes main heading of “Tournament Title” and “Total Score” separated by a decent space along with this , it includes the following fields :
 - **Tournament Name**
 - **Tournament Description** (Character limit is 200 characters) . beyond that , Coach is unable to enter characters .
 - **Tournament Issue Count**
 - **Tournament Logo**
 - **A cross Icon** (To collapse the form)
 - Two buttons at the bottom “**Edit**” and “**Update**”

3. Managing Tournaments:

- The form includes two buttons at the bottom:
 - **Edit**: Allows the coach to modify the tournament details.
 - **Update**: Saves the changes made to the tournament details.

4. Editing Tournament Information:

- Upon clicking “**Edit**” button, the form turns editable and includes two more buttons “Save” and “Delete”. The coach is able to modify all the tournament details such as **Title, Total Score ,Tournament Name , Description, Issue Count , Tournament Logo**
- After editing, clicking “**Update**” saves the changes and updates the tournament details accordingly.
- If coach clicks on “Delete” button , leads to deletion of the “Tournament” from the system
- If Coach clicks on “Add a Tournament” button , an empty form appears with all key properly labelled input fields mentioned above but only a “Save” button will be there
- If coach enters all the details and clicks on “Save” button leads to the addition of new Tournament in the system and will display on the “Tournaments” page

3) Title : Team Management

Description : As a coach, I want to navigate to the **Edit Team** page from the dashboard, where I can view and manage team details, so I can update or reset the information as needed.

Acceptance Criteria:

1. Navigating to the Edit Team Page:

- Clicking on the **Edit Team** section redirects the coach to the “Team Registration” Page.
- The “Team Registration” Page displays a Team logo , Team Photo , Properly labelled input fields such as Short Name , Long Name , Tag Line , Description and an “Update” button
- The form is editable by default
- Coach can edit details and can click on **“Update”** button to save the changes . These changes will reflect in real time.

4) Title : Adding and Managing Coach Profiles

Description : As a coach, I should be able to edit my profile if needed, so that I can manage my details and keep it up to date.

Acceptance Criteria:

1. Navigating to the Add Coach Profile:

- Clicking on the **“Coach Profile”** section from Dashboard opens Coach Registration form .
- The form includes main heading “Coach Registration” , “Profile Photo” , “Name” , “Domain Name” , “Employee ID” , “Description” , “Gender” dropdown with “Male” and “Female” options and a “save” button
- Form is editable by default and coach can edit the details if required and can click on “save” button . Clicking on “save” button saves all the changes and reflect in real time .

5) Title : Data Analysis

Description : As a coach, I want to view a detailed performance dashboard of the players with some graphical representation.

Acceptance Criteria:

1. Navigating to the “Data Analysis” page:

- Clicking on the **“Data Analysis”** section from Dashboard opens **“Data Analysis dashboard”**
- Coach can view the dashboard and can get the details of the player’s performances.

6) Title : Accessing Team Documents

Description: As a coach, I want to be able to access all the "Team Documents" created for this project on the website , so that I can easily view and manage them.

Acceptance Criteria:

● Navigating to the "Team Documents" page:

- Clicking on the "Team Documents" section from the Dashboard takes the coach to the "Team Documents" page, where they can access all project-related documents.
- The page includes a "Home" icon and a "Root" category with a “back” icon .

- Within the "Root" category, there are three folders:
 1. Individual Contribution
 2. Personal Task
 3. Website
- Clicking on any of the folders opens the folder, allowing the coach to view all the files contained within each folder.
- By default, the 'Home' icon is disabled. It becomes active only when the user is inside a folder and wants to navigate back to the root folder.
