

User Stories for Player role

Title: Team Photo Page

Description : As a player, I want to land on the “Team photo” page, where I can see a floating nav component, a static “Team” photo, and a "Tournaments" button, so that upon clicking the “Tournaments” button, I can easily navigate to the “Tournaments” page .

Acceptance Criteria:

- Upon landing on the “Team photo” page, the player will get to see a static image of the team.
- A floating nav component is displayed at bottom left of the page.
- The "Tournaments" button is visible and functional, redirecting the player to the tournaments page when clicked.

Title : Navigating to Tournaments Page

Description : As a player, I want to be redirected to the tournaments page upon clicking the "Tournaments" button, so that I can view available tournament cards.

Acceptance Criteria:

- The "Tournaments" button redirects the player to the tournaments page.
- The tournaments page displays the main heading “Tournaments” along with four tournament cards : "Namo AI", "MPC", and "Test Case Regression" , “App Revamp” and a “Scores” button for navigation to scores page .
- Each tournament card includes the title and logo and a proper hover effect .
- Clicking on a tournament card expands the card and shows the following details: tournament description, title, logo, issues raised within the specific time frame, and total scores along with a cross icon to collapse the card.

Title : Navigating to Scores Page

Description : As a player, I want to be able to click on the "Scores" button from the tournaments page, so that I can view the team members and their respective ranks based on the scores in descending order.

Acceptance Criteria:

- The "Scores" button on the tournaments page redirects the player to the "Team Members" page.
- Team members page includes main heading “Team Members” , an animated stadium rotation background , a “Credits” button , vertically scrollable cards of the players sorted based on the descending order of the scores . Each card includes the Rank (based on the

descending order of the scores) , “designation” , “Profile photo” , “Domain ID” and “Team” name

Title : Expanding and Collapsing a Team Member's Card

Description : As a player, I want to click on a team member's card to expand it and view their performance in detail, and want to be able to collapse the expanded card to return to the main list of team members.

Acceptance Criteria:

1. Expanding the Card:

- Clicking on a **team member's card** expands it to show all details.
- The expanded card displays the following information:
 - **Designation**
 - **Domain ID**
 - **Team Name**
 - **Profile Photo**
 - **Rank**
 - **Current Score**
 - **Previous Score**
 - **Total Issues**
 - **Courses**
 - **Projects**
 - **Cross Icon**

2. Courses and Projects Display:

- The **Courses** and **Projects** sections should be displayed as **vertically scrollable lists**, allowing players to view all relevant entries.

3. Collapsing the Card:

- An easily accessible **cross icon** is provided in the expanded team member card.
- Clicking the **cross icon** collapses the expanded card and navigates player back to the main list of team members.

4. Smooth Transition:

- The transition between expanded and collapsed views should be smooth, ensuring that the player can easily return to the team member list.

Title : Credits Page with Role-based Hexagons

Description : As a user (Coach/Player) , I want to view the roles of individuals in the project displayed in 10 hexagonal tiles , so that I can easily identify the role , associated logo , and the team members responsible for each part of the project.

Acceptance Criteria:

Hexagonal Tile Layout:

- The page displays 10 hexagonal tiles, each representing a unique role in the project.

- Each hexagon is visually distinct, with an appropriate uniform size and spacing to maintain a clean layout.

Hexagon Structure:

- Top of each hexagon: Displays the name of the role (e.g., Developer, Designer, Project Manager).
- Middle of each hexagon: Shows the logo associated with the role. For example , a coding icon for Developers .
- Bottom of each hexagon: Lists the names of individuals involved in that role, separated by line breaks .
