

User Stories

1) Title: Black Screen Page (Default Page)

Description:

- **As a user**, I want to see a black blank screen so that I can access the **'Landing page'** by clicking anywhere on the screen.

Acceptance Criteria:

- The screen is completely black.
- Clicking anywhere on the screen navigates the user to the landing page.

2) Title: Landing Page for Coach and Player

Description:

- **As a Coach**, I want to see two buttons ("I am Coach" , "I am Player") , **'MPC logo'** , **'Tagline'** , **'Description'** and some animation at the background . By clicking on (**'I am Coach'**) button , I want to login to the system using valid credentials, and based on the login success , I want to land on my **'Coach Dashboard'** page)
- **As a player** , I want to see two buttons ("I am Coach" , "I am Player") and along with these buttons I want to see **'MPC logo'** , **'Tagline'** , **'Description'** 'and some animation at the background) .By clicking on the (**'I am Player'**) I want to navigate to **'Team Photo'** page.

Acceptance Criteria:

Login Button and Player navigation button :

The landing page displays two buttons: **"I am Coach"** and **"I am Player"** , **"MPC logo"** , **"Tagline"** , **"Description"** and some animation at the background

Clicking on **"I am Coach"** button opens **"login"** form , whereas clicking on **"I am Player"** navigates player to **"Team Photo page"**

Login Form:

The login form asks for the user's domain name and password.

The form has a "Submit" button to submit the entered credentials.

Authentication:

Upon submitting the form, the system validates the entered credentials **(Coach specific)**.

Successful Login:

After successful authentication, Coach should land on the **"Coach Dashboard"** page.

Unsuccessful Login :

If authentication fails:

An appropriate error message (e.g., "Incorrect username or password") appears.

The user is allowed to attempt login again by entering new credentials.

UI/UX:

The login button ("I am Coach") and navigation button (" I am Player ") should be clearly visible and labeled.

3) Title: Coach Dashboard Page (with CRUD operations)

Description:

As a coach, Upon successful login I want to see my dashboard consisting of 3 sections (**1. Tournament section (Activities), 2. Player section , 3. Team section**) , **“Team Photo”** button , a **“logout”** button and ball-like nav component and also I want to have access to CRUD operations on player profiles, team information, tournament activities and all other data so that I can efficiently maintain player records, update tournament , and manage team-related details, all within a single dashboard . I want to logout from the system by clicking on Logout button

Acceptance Criteria:

Coach Dashboard page consist of MPC logo , 3 sections (“Tournament” , “Players”, “Team”) , **“Team Photo”** button and a floating ball like component for navigation.

Clicking on **“Team Photo”** button, redirects **“Coach”** to **“Team Photo”** page.

Clicking on **“Logout”** button, logs the coach out of the system and redirects to Landing page.

There will not be a traditional navbar. Instead, there will be a floating ball-like component. Clicking on it will lead to component expansion , and the coach will see all the navigation links: 'Dashboard (For Coach Login Only)', 'Landing', 'Tournaments', 'Scores', and 'Exit', allowing them to navigate through them.

Navigation links include **“Landing”** , **”Team Photo”** , **”Tournaments”** , **”Scores”** , **”Exit”** . The link for the page where user is already present will be hidden .

Coach can apply CRUD operations on the details of players and every other editable data

Player Management:

- Coach can view players currently in the team.
- Coach can add new players by entering necessary details (i.e: Profile pic , Name, Domian_Name, emp_ID , Score , courses, projects and other imp info.)

- Coach can update player information .
- Coach can remove players from the team .

Tournament Management:

- Coach can view Tournaments cards.
- Coach can create new tournaments (Activities like Namu , JioCloud etc) ,
- Coach can update existing tournament details .
- Coach can delete tournaments that are no longer relevant.

Permissions & Access Control:

- Coach can only access pages and functionalities that are intended for them,
- Coach can view and update each player's details .
- Unauthorized users (e.g., players) will not be able to access the coach dashboard or perform CRUD operations on any data.

4) Title: Team Photo Page

Description:

As a Coach, Once clicked on **“Team Photo”** link from navigation component or **“Team Photo”** button from Dashboard page , I want to land on **“Team Photo”** page (Cricket Theme) and I want to have access to CRUD operations as well

As a player, Once clicked on **“I am Player”** button or **“Team Photo”** link from ball-like navigation component , I want to land on **“Team Photo”** page (Cricket Theme)

Acceptance Criteria:

Team Photo page consist of **“MPC logo”** , **“Team’s photo”** (Cricket theme) , **“Tournaments”** button and floating ball like component for navigation

There will not be a traditional navbar. Instead, there will be a floating ball-like component. Clicking on it will lead to component expansion , and the coach will see all the navigation links: 'Dashboard (For Coach Login Only)', 'Landing', 'Tournaments', 'Scores', and 'Exit', allowing them to navigate through them.

For Coach , CRUD operations will be accessible to change or update Team photo

4) Title: Tournament Page

Description:

As a Coach, Once clicked on **“Tournaments”** button from **“Team Photo”** page or **“Tournaments”** link from ball-like navigation component ,I want to land on **“Tournaments page”** and I want to have access to CRUD operations as well

As a player, Once clicked on **“Tournaments”** button from **“Team Photo”** page or **“Tournaments”** link from ball-like navigation component ,I want to land on **“Tournaments page”** .

Acceptance Criteria:

Tournaments page consist of **“MPC logo”** , **“MPC Tournament Title”** , **“Tournament cards”** , **“Score Card”** button and floating ball like component for navigation

clicking on any **“Tournament card”** leads to card expansion .

Expanded card includes **“Tournament logo ”** and **“tournament details”**

There will not be a traditional navbar. Instead, there will be a floating ball-like component. Clicking on it will lead to component expansion , and the (coach/Player) will see all the navigation links: **'Dashboard (For Coach Login Only)'**, **'Landing'**, **'Tournaments'**, **'Scores'**, and **'Exit'**, allowing them to navigate through them.

For Coach , CRUD operations will be accessible to update tournament related information.

4) Title: Score Card Page

Description:

As a Coach, Once clicked on **“Score card”** button from Tournaments page or **“Score card”** link from ball-like navigation component , I want to land on **“Score Card”** page and I want to have access to CRUD operations as well

As a player, Once clicked on **“Score card”** button from Tournaments page or **“Score card”** link from ball-like navigation component , I want to land on **“Score Card”** page .

Acceptance Criteria:

Score Card page consist of **“MPC logo”** , **“MPC Score card” Title** , **“Score cards of team members”** , **“Exit” button** and floating ball-like component for navigation

At the top, there will be two captain cutout cards, followed by the rest of the team members, sorted based on their scores in descending order.

clicking on any **“Score card”** leads to card expansion .

Expanded card includes **“ Score Board title ”** , **“Profile pic of player”** and **details (Domain Name , Score , Courses , Individual project etc)**

There will not be a traditional navbar. Instead, there will be a floating ball-like component. Clicking on it will lead to component expansion , and the (coach/Player) will see all the navigation links: '**Dashboard (For Coach Login Only)**', '**Landing**', '**Tournaments**', '**Scores**', and '**Exit**', allowing them to navigate through them.

For Coach , CRUD operations will be accessible to update Score card related information.

4) Title: Landing Page (Exit page)

Description:

As a (player/Coach), Once clicked on **“Exit” button** from “score card” page or **“Exit”** link from ball-like navigation component , I want to land on **“Exit” page** .

Acceptance Criteria:

Exit page consist of MPC logo , **“ MPC Exit ” Title** , **“ Thank You ” (Static text)** , **2 icons (Restart and Exit icon)** and floating ball like component for navigation

Clicking on **“Restart”** icon redirects (Player/Coach) to **“landing page”**

Clicking on **“Exit”** icon redirects Player to **“black default page”**

There will not be a traditional navbar. Instead, there will be a floating ball-like component. Clicking on it will lead to component expansion , and the (coach/Player) will see all the navigation links: '**Dashboard (For Coach Login Only)**', '**Landing**', '**Tournaments**', '**Scores**', and '**Exit**', allowing them to navigate through them.

5) Title : AI Bot

Description : As a user , I want an AI bot to assist in handling user queries, so that I can provide with quicker responses and can get the details of my interest

Acceptance Criteria :

For the user access , AI Bot floating icon will be present on all pages except “landing” and “exit” page and user can access the Bot and can interact with it

1. Case 1: Valid User Query

Chatbot is trained to generate data based on the following contexts : -

- MPC details
- Each team member’s details including :

• Domain Name	• Employee ID	• Previous Team	• Qualification	• Hobbies	• Home Town	• Release interest
---------------	---------------	-----------------	-----------------	-----------	-------------	--------------------

- If the user submits a valid prompt within the context , appropriate response will be generated .
- User can get the details of the employees by entering Emp ID , Name , Domain Name or any custom prompts including any of the three listed above.
- Example prompts for fetching employee data :

Prompt	Response
San (Name is not complete)	Couldn't find the result for the name "San" Did you mean 'Sanjeev2.prajapati'
Sanjeev2.prajapati	Sanjeev2.Prajapati's data shows that he works in the JPMA team, has a B. Tech (Hons.) qualification, his hobbies include Travelling and Poetry, his hometown is Rudrapur Uttarakhand, and his release interest is Data Science. His current team is MPC.
55099222	Sanjeev2.prajapati
Sanjeev Prajapati	Based on the provided employee data, Sanjeev Prajapati's other details are: ***EmployeeID:** 55093222 ***Previous Team:** JPMA ***Qualification:** B.Tech(Hons.) ***Hobbies:** Travelling, Poetry ***Home Town:** Rudrapur Uttarakhand ***Release interest:** Data Science ***Current Team:** MPC
Who is Sanjeev ?	Sanjeev Prajapati is an employee with Employee ID 55093222 . His previous team was JPMA , he has a B. Tech(Hons.) qualification , his hobbies include travelling and poetry , his hometown is Rudrapur (Uttarakhand) and his current team is MPC

• MPC Details :

User can get the MPC details like

• Expanded form	• Different views	• Features
-----------------	-------------------	------------

Example prompts :

1. What is full form of MPC
2. Explain MPC in detail
3. What are the features of MPC application

Case 2: Default Response (No Direct Answer Available)

- If entered query is out of context and system is unable to provide a direct response to the user's query . In that case , user is provided with a default response .

Prompt	Response
Any out of context prompt like : How did the reforms influence India's growth and integration into the global economy?	Default response : This document does not contain information about India's economic reforms or their impact on growth and global integration. The provided text describes the functionality of a software application, "Mera Saansad," and its testing procedures.

Case 3: Profanity

- If the user’s query contains profanity or inappropriate content , then bot will detect the profanity and will provide a default response for the profanity in that case .
-
