

Data Analytics + Data Engineer

Ashutosh Patil

Associate SQL Engineer

Data Analytics(E&M)

Manager: Arun Verma

Project: Migration

Tech Stacks/Tools:

1. SAP HANA
2. HADOOP
3. PYSPARK
4. ORACLE
5. INFORMATICA

Language: SQL

Workflow: Ashutosh Patil is primarily involved in data migration tasks, specifically migrating data from SAP HANA to Oracle due to the high costs associated with HANA. His responsibilities include executing SQL scripts to facilitate the data migration process. Additionally, he utilizes extract, transform, and load (ETL) tools and is responsible for maintaining and managing data pipelines throughout the migration process.

Things he suggested to focus on:

1. SQL Advance functions
2. Python
3. Personal Projects

Personal Projects:

1. Pizza Sales Analysis
2. Retail Store Dashboard
