

Full Stack Development Project

Project: PeopleFirst

Developer: Jayesh Rathod

Technology Stack and Tools:

- **Flutter:** Flutter is an open-source UI toolkit by Google for building natively compiled applications for mobile, web, and desktop from a single codebase. It enables high-performance app development with a rich set of pre-designed widgets, ensuring a smooth and interactive user experience across platforms.

Languages Used:

- Dart

Development Workflow:

1. **Requirement Gathering and Analysis:** Understand the project needs and outline the scope and objectives.
2. **Frontend Development:** Design and implement the client-side functionality, ensuring a smooth user experience.
3. **Ongoing Maintenance and Optimization:** Continuously monitor, maintain, and optimize the system for performance, scalability, and security.
